FORD PIQUETTE PLANT, DETROIT

SPONSOR AND EXHIBITOR INFORMATION

The 5th edition of ESTECO North American Users' Meeting will take place on October 24th-25th, 2017 at the Ford Piquette Plant in Detroit, Michigan. The gathering of modeFRONTIER and VOLTA enthusiasts provides a unique forum for sharing knowledge and learning about the latest applications, methods and techniques used to advance product innovation through simulation and design optimization. Every two years, the event hosts more than **100 attendees** and **10 speakers** presenting industrial cases from important companies such as **Ford, Toyota, Bombardier, MMI Engineering, Borgwarner and Whirlpool**. Prominent speakers at past meetings have included **Robert Lotz** - Senior Project Engineer for aerodynamics at BorgWarner Turbo Systems - and **Mario J. Felice** - Manager of Global Powertrain NVH & Systems CAE Department at Ford Motor Company.
