

# um INTERNATIONAL USERS' MEETING 2018 23<sup>rd</sup> » 24<sup>th</sup> MAY 2018 » TRIESTE, ITALY

STAZIONE MARITTIMA CONFERENCE HALL  
MOLO BERSAGLIERI | TRIESTE

## CALL FOR PRESENTATIONS

ESTECO is proud to announce the 8th edition of ESTECO International Users' Meeting. This biennial event is a leading forum for users, researchers, practitioners and developers to exchange techniques, experiences and methods in simulation and optimization technology.

The conference is open to both academic and industry contributions showing how ESTECO Technology has been applied to accelerate product innovation.

Topics covered in previous editions of ESTECO UM include:

- rationalization of the designing process;
- product optimization in terms of technical requirements and also of process, product and marketing metrics;
- applicability and reliability of decision-support IT tools in a context of diverse goals, experience and approach, whether professional or managerial;
- parallel engineering and design organization in industrial networks with suppliers increasingly involved in the process.

Past editions of ESTECO UM attest to the global nature of the initiative with more than 600 users from over 50 countries and more than 180 speakers from innovative international companies and research centers.

### Keen on sharing your experience with ESTECO technology?

We welcome presentations or papers which are not under review by other conferences or journals. The conference is open to both academic and industry contributions.

## SUBMISSION GUIDELINES

The author(s) declare that they grant permission to ESTECO SpA to include the paper in the conference material and to place it on relevant websites and publications. All submissions must be sent via the **dedicated form** on UM18 website. Approved speakers will be notified and automatically registered to the event.

### DEADLINES

- Abstract submissions due: **Deadline extended! March 9, 2018**
- Full paper/presentation due: April 29, 2018
- Conference: May 23-24, 2018
