SPONSOR AND EXHIBITOR INFORMATION

The 8th edition of the biennial ESTECO International Users' Meeting 2018 is approaching fast.

The event provides a unique forum for sharing knowledge and discovering all the latest applications, methods and techniques used in the optimization of design processes and enhancing product innovation. Every two years, the event hosts more than 200 participants and over 40 speakers presenting industrial cases from leading companies including ABB, Bombardier, Embraer, Ford, Petrobras, Volvo and Whirlpool. Among the prominent speakers in past editions: Prof. David Goldberg, leading expert in genetic algorithms and evolutionary computation, Yan Fu from Ford and John Mannisto from Whirlpool Corporation.
